A Safe Place to Explore Questions About Life and God

This is where the world lives.
This makes it very easy to help nonbelievers.

Most nonbelievers don't know who God is
or what it's like to know God.

That's why EveryPerson.com...

is a safe place for them to explore...

who God is,

what it might be like to know God.

fits our culture.

Religion is a touchy subject.

The creator/director of EveryPerson.com
was an atheist. She explains...

“In conversations, I defended my atheism.
I focused on rebuttals. And I won every argument.

It wasn't until I was alone, when my defenses could
come down...as I read some information
God spoke to my heart.

This is why EveryPerson.com (EveryStudent.com) was
built...to give nonbelievers a safe place to explore their
questions about life and God. It's filled with Scripture
and logical reasons to believe in Jesus.”

For most nonbelievers, online is comfortable. Safe. They're in control. No one is challenging them. Defenses can come down. They can be honest.

It's the perfect environment for
God to speak to them.

Is There a God?

Does God exist? Here are six straightforward reasons to believe that God is really there.

By Marilyn Adamson

Just once wouldn't you love for someone to simply show you the evidence for God's existence? No arm-twisting. No statements of, "You just have to believe." Well, here is an attempt to candidly offer some of the reasons which suggest that God exists.

But first consider this. When it comes to the possibility of God's existence, the Bible says that there are people who have seen sufficient evidence, but they have suppressed the truth about God.¹ On the other hand, for those who want to know God if He is there, He says, "You will seek me and find me, when you seek me with all your heart, I will be found by you."² Before you look at the facts surrounding his existence, ask yourself if God does exist, would I want to know him? Here then, are some reasons to consider.

1. The complexity of our planet points to a deliberate Designer who not only created our universe, but sustains it today.

Many examples showing God's design could be given, possibly with no end. But here are a few:

The Earth. Its size is perfect. The Earth's size and corresponding gravity holds in this layer of mostly nitrogen and oxygen gases, only extending about 50 miles above the Earth's surface. If Earth were smaller, an atmosphere would be impossible, like the planet Mercury. If Earth were larger, its atmosphere would contain free hydrogen, like Jupiter.³ Earth is the only known planet equipped with an atmosphere of the right mixture of gases to sustain plant, animal and human life.

The Earth is located the right distance from the sun. Consider the temperature savings we encounter, roughly -30 degrees to +120 degrees. If the Earth were any farther away from the sun, we would all freeze. Any closer and we would burn up. Even a fractional variance in the Earth's position to the sun would make life on Earth impossible. The Earth remains this perfect distance from the sun while it rotates around the sun at a speed of nearly 67,000 mph. It is also rotating on its axis, allowing the entire surface of the Earth to be properly warmed and cooled every day.

And our moon is the perfect size and distance from the Earth for its gravitational pull. The moon creates important ocean tides and movement so ocean waters do not stagnate, and yet our massive oceans are restrained from spilling over across the continents.⁴

Water, colorless, odorless and without taste, and yet no living thing can survive without it. Plants, animals and human beings consist mostly of water (about two-thirds of the human body is water). You'll see why the characteristics of water are uniquely suited to life.

Water is a universal solvent. This property of water means that various chemicals, minerals and nutrients can be carried throughout our bodies and into the smallest blood vessels.⁵

Water is also chemically neutral. Without affecting the makeup of the substances it carries, water enables food, medicines and minerals to be absorbed and used by the body.

Water has a unique surface tension. Water in plants can therefore flow upward against gravity, bringing life-giving water and nutrients to the top of even the tallest trees.

Water freezes from the top down and floats, so fish can live in the winter.

Ninety-seven percent of the Earth's water is in the oceans. But on our Earth, there is a system designed which removes salt from the water and then distributes that water throughout the globe. Evaporation takes the ocean waters, leaving the salt, and forms clouds which are easily moved by the wind to disperse water over the land, for vegetation, animals and people. It is this system of purification and supply that sustains life on this planet, a system of recycled and reused water.⁶

The human brain. Simultaneously processes an amazing amount of information. Your brain takes in all the colors and objects you see, the temperature around you, the pressure of your feet against the floor, the sounds around you, the dryness of your mouth, even the texture of your keyboard. Your brain holds and processes all your emotions, thoughts and memories. At the same time your brain keeps track of the ongoing functions of your body like your breathing pattern, eyelid movement, hunger and movement of the muscles in your hands.

The human brain processes more than a million messages a second.⁷ Your brain weighs the importance of all this data, filtering out the relatively unimportant. This screening function is what allows you to focus and operate effectively on your world. The brain functions differently than other organs. There is an intelligence to it, the ability to reason, to produce feelings, to dream and plan, to take action, and relate to other people.

The eye, can distinguish among seven million colors. It has automatic focusing and handles an astounding 1.5 million messages -- simultaneously.⁸ Evolution focuses on mutations and changes from and within existing organisms. Yet evolution alone does not fully explain the initial source of the eye or the brain -- the start of living organisms from nonliving matter.

2. The universe had a start - what caused it?

Scientists are convinced that our universe began with one enormous explosion of energy and light, which we now call the Big Bang. This was the singular start to everything that exists: the beginning of the universe, the start of space, and even the initial start of time itself.

Astrophysicist Robert Jastrow, a self-described agnostic, stated, "The seed of everything that has happened in the Universe was planted in that first instant; every star, every planet and every living creature in the Universe came into being as a result of events that were set in motion in the moment of the cosmic explosion. The Universe flashed into being, and we cannot find out what caused that to happen."⁹

Steven Weinberg, a Nobel laureate in Physics, said at the moment of this explosion, "the universe was about a hundred thousands million degrees Centigrade, and the universe was filled with light."¹⁰

The universe has not always existed. It had a start, what caused that? Scientists have no explanation for the sudden explosion of light and matter.

3. The universe operates by uniform laws of nature. Why does it?

Much of life may seem uncertain, but look at what we can count on no matter how far away gravity remains consistent, a hot cup of coffee left on a counter will get cold, the earth rotates in the same 24 hours, and the speed of light doesn't change -- or at least in a galaxies far from us.

How is it that we can identify laws of nature that never change? Why is the universe so orderly, so reliable?

"The greatest scientists have been struck by how strange this is. There is no logical necessity for a universe that obeys rules, let alone one that abides by the rules of mathematics. This astonishing springs from the recognition that the universe doesn't have to behave this way. It is easy to imagine a universe in which conditions change unpredictably from instant to instant, or even a universe in which things pop in and out of existence."¹¹

Richard Feynman, a Nobel Prize winner for quantum electrodynamics, said, "Why nature is mathematical is a mystery. The fact that there are rules at all is a kind of miracle."¹²

4. The DNA code informs, programs a cell's behavior.

All instruction, of teaching, all training comes with intent. Someone who writes an instruction manual does so with purpose. Did you know that in every cell of our bodies there exists a very detailed instruction code, much like a miniature computer program? As you may know, a computer program is made up of ones and zeros, like this: 11001010101000. The way they

are arranged in the human cell like this: CCTCTACTCCCTCCCTGAT and so on. There are three billion of these letters in every human cell!

Well, just like you can program your phone to beep for specific reasons, DNA instructs the cell. DNA is a three-billion-lettered program telling the cell to act in a certain way. It is a full instruction manual.¹³

Why is this so amazing? One has to ask...how did this information program wind up in each human cell? These are not just chemicals. These are chemicals that instruct, that code in a very detailed way exactly how the person's body should develop.

Natural, biological causes are completely lacking as an explanation when programmed information is involved. You cannot find instruction, precise information like this, without someone intentionally constructing it.

5. We know God exists because He pursues us. He is constantly initiating and seeking for us to come to Him.

I was an atheist at one time. And like many atheists, the issue of people believing in God bothered me greatly. What is it about atheists that we would spend so much time, attention, and energy refuting something that we don't believe even exists? What causes us to do that? When I was an atheist, I attributed my intentions as caring for those poor, delusional people...to help them realize their hope was completely ill-founded. To be honest, I also had another motive. As I challenged those who believed in God, I was deeply curious to see if they could convince me otherwise. Part of my quest was to become free from the question of God. If I could conclusively prove to believers that they were wrong, then the issue is off the table, and I would be free to go about my life.

I didn't realize that the reason the topic of God weighed so heavily on my mind, was because God was pressing the issue. I have come to find out that God wants to be known. He created us with the intention that we would know Him. He has surrounded us with evidence of himself and He keeps the question of his existence squarely before us. It was as if I couldn't escape thinking about the possibility of God: in fact, the day I chose to acknowledge God's existence, my prayer began with, "Oh, you win... It might be that the underlying reason atheists are bothered by people believing in God is because God is actively pursuing them.

I am not the only one who has experienced this. Malcolm Muggeridge, socialist and philosophical author, wrote, "I had a notion that somehow, besides questing, I was being pursued." C.S. Lewis said he remembered, "...night after night, feeling whenever my mind lifted even for a second from my work, the steady, unrelenting approach of Him whom I so earnestly desired not to meet. I gave in, and admitted that God was God, and knelt and prayed; perhaps, that night, the most dejected and reluctant convert in all of England."

Lewis went on to write a book titled, "Surprised by Joy" as a result of knowing God. I too had no expectations other than speedily ascending toward heaven, that night, the most dejected and reluctant convert in all of England."

6. Unlike any other revelation of God, Jesus Christ is the clearest, most specific picture of God revealing himself to us.

Why Jesus? Look throughout the major world religions and you'll find that Buddha, Muhammad, Confucius and Moses all identified themselves as teachers or prophets. None of them ever claimed to be equal to God. Surprisingly, Jesus did. That is what sets Jesus apart from all the others. He said God exists and you're looking at Him. Though he talked about his Father in heaven, it was not from the position of separation, but of very close union, unique to all humankind. Jesus said that anyone who had seen Him had seen the Father; anyone who believed in Him, believed in the Father.

He said, "I am the light of the world, he who follows me will not walk in darkness, but will have the light of life."¹⁴ He claimed attributes belonging only to God: to be able to forgive people of their sin, free them from habits of sin, give people a more abundant life and give them eternal life in heaven. Unlike other teachers who focused people on their words, Jesus pointed people to himself. He did not say, "Follow my words and you will find truth." He said, "I am the way, the truth, and the life, no one comes to the Father but through me."¹⁵

What proof did Jesus give for claiming to be divine? He did what people can't do, Jesus performed miracles. He healed people blind, crippled, deaf, even raised a couple of people from the dead. He had power over objects, created food out of thin air, enough to feed crowds of several thousand people, he performed miracles over nature, walked on top of a lake, commanding a raging storm to stop for some friends. People everywhere followed Jesus, because he constantly met their needs, doing the miraculous. He said if you do not want to believe what I'm telling you, you might at least believe in me based on the miracles you're seeing.¹⁶

Jesus Christ showed God to be gentle, loving, aware of our self-centeredness and shortcomings, yet deeply wanting a relationship with us. Jesus thinking about the possibility of God as His sinners, worthy of His punishment, His love for us ruled and came up with a different plan. God himself took on the form of man and accepted our punishment for our sin on our behalf. Sounds ludicrous? Perhaps, but many loving fathers would gladly trade places with their child in a cancer ward if they could. The Bible says that the reason we would love God is because he first loved us.

Jesus did in our place so we could be forgiven. Of all the religions known to humanity, only through Jesus will you see God reaching toward humanity, providing a way for us to have a relationship with Him. Jesus proves a divine heart of love, meeting our needs, drawing us to himself. Because of Jesus' death and resurrection, we have a new life today. We can be forgiven, fully accepted by God and genuinely loved by God. He says, "I have loved you with an everlasting love, therefore I have continued my faithfulness to you."¹⁷

God reaching toward humanity, providing a way for us to have a relationship with Him. Jesus proves a divine heart of love, meeting our needs, drawing us to himself. Because of Jesus' death and resurrection, he offers us a new life today. We can be forgiven, fully accepted by God and genuinely loved by God. He says, "I have loved you with an everlasting love, therefore I have continued my faithfulness to you."¹⁷ This is God, in action.

Does God exist? If you want to know, investigate Jesus Christ. We're told that "God so loved the world that he gave his only Son, that whoever believes in him should not perish but have eternal life."¹⁸

God does not force us to believe in Him, though he could. Instead, he has provided sufficient proof of his existence for us to willingly respond to Him. The earth's perfect distance from the sun, the unique chemical properties of water, the human brain, DNA, the number of people who attest to knowing God, the gnawing in our hearts and minds to determine if God is there, the willingness for God to be known through Jesus Christ. If you need to know more about Jesus and reasons to believe in Him, please see [Second Blind Faith](#).

If you want to begin a relationship with God now, you can.

This is your decision, no coercion here. But if you want to be forgiven by God and come into a relationship with Him, you can do so right now by asking Him to forgive you and come into your life. Jesus said, "Believe in the door [of your heart] and knock. He who hears my voice and opens the door, I will come into him [or her]."¹⁹ If you want to do this, but aren't sure how to put it into words, this may help. "Jesus, thank you for dying for my sins. You know my life and that I need to be forgiven. I ask you to forgive me right now and come into my life. I want to know you in a real way. Come into my life now. Thank you that you wanted a relationship with me. Amen."

God values your relationship with Him as permanent. Referring to all those who believe in Him, Jesus Christ said of us, "I know them, and they follow me, and I give them eternal life, and they shall never perish, and no one shall snatch them out of my hand."²⁰

Looking at all these facts, one can conclude that a loving God does exist and can be known in an intimate, personal way.

Why does evangelism make Christians so nervous?

They don't want to offend someone. They don't want to hurt the relationship.

And they're especially afraid that someone could ask them a question they can't answer.

That can rattle their own faith, and they can feel like a failure for not being able to really help this person.

So it's just easier to avoid the conversation altogether.

can be their safety net.

“Although you don’t know me I feel that you’ve taken my hand and led me on a very special journey these last few weeks.

The information you provided answers many of my questions. You have led me from complete denial of God’s existence to not just believing in Him but knowing that He is there. The evidence you give was sufficient to convince this 33 year old, life-long atheist; not an easy challenge.”

“Thank you so much for your website. It's been so nice how much sense it makes. It helped me find Jesus/God/Our Lord. Of course, as I am new to it (I used to be Agnostic), I still have little doubt. But that doubt is fading away quickly. Your website has provided believable proof and such eye opening material.”

~Dominique

"I visited your website on the 24th of October, last year and it has been a life changing experience. I came to know about the love of God and the relationship we can have with him. I do not have words to explain the joy I am experiencing today and I think my life would have been different if I had not visited your site on that wonderful day." ~John

Here's how you can use the site

Some examples...

True story...

I was at a hotel. A woman standing next to me in the lobby asked if I was part of their convention.

I said, “No, I’m with a site that takes on the hard questions about life and God, like why is life so hard and how do you know God exists?”

She said, “I’m an atheist, but I’m searching.”

So I said, “Well you will love this site. It will give you reasons to believe in God and how you can begin a relationship with him. Let me give you a card to it.”

She was so grateful.

True story -- A man on a flight asked what I did. I said, (and YOU can say), “I’m connected to a site that takes on the hard questions about life and God.”

He said, “My friend has been trying to convert me for two years.”

So I asked, “What’s your hesitation?” We talked about God for over an hour. It was a very warm, comfortable conversation. (I knew I could point him to the site. I didn’t have to cover everything right then.)

At the end I said, “So many of the questions you mentioned are answered really well on this site. Let me give you a card to it.”

True story -- Another time, I was standing in line at a fast food restaurant. It was a long line.

A student next to me started chatting with me.

So I asked about his major. It was computer engineering.

I told him a little about EveryStudent.com...

He said, “I’m agnostic. But my fiancé is a Christian.”

I asked him, “If you saw sufficient evidence for God’s existence, would you want to know God?”

He said yes, so I pulled out my phone and had him sign up for...

That's common. People appreciate you resourcing them with something that can answer their questions. They sense that you care about them. You're not trying to control them. You respect their ability to decide. They are very grateful!

In everyday moments -- At a party, while shopping, in an Uber, at the office, with a friend or relative, you can say...

Is God In My Life Now?

When you made that decision and invited Jesus into your life, it is important to know, did God hear you? Yes. Jesus promised that He would enter our lives, if we ask Him. [PDF version](#)

In Revelation 3:20 Jesus makes this offer, "Behold, I stand at the door and knock; if any one hears my voice and opens the door, I will come in to him and eat with him, and he with me." Did you open the door of your heart to God? If so, what did He say He would do? Would God mislead you?

First John 5:14 says, "This is the confidence we have in approaching God: that if we ask anything according to his will, he hears us."

In John 6:37, Jesus said, "All that the Father gives me will come to me; and him who comes to me I will not cast out." And in John 10:27-29 Jesus said, "My sheep hear my voice, and I know them, and they follow me; and I give them eternal life, and they shall never perish, and no one shall snatch them out of my hand. My Father, who has given them to me, is greater than all, and no one is able to snatch them out of the Father's hand."

Jesus died on the cross for our sins, so that we could be in relationship with Him. He's not indifferent to the issue. He went to great lengths to bring us into relationship with Him. Jesus took our sins on Himself and covered us with His righteousness, making us fully forgiven and fully accepted by Him. We don't have to first live good lives, or perform religious rituals, or spend years begging Him. God is the one who made it possible for us to have a relationship with Him. And we come to Him based on what He did for us, rather than what we can do. He paid for our sins, in order to forgive us and come into our lives. First Peter 3:18 says, "For Christ died for sins once for all, the righteous for the unrighteous, to bring you to God."

When a person asks Jesus into their life, it is exciting to know what God says is now true about your relationship with God:

- **You are at peace with God** — "Therefore, since we are justified by faith, we have peace with God through our Lord Jesus Christ." (Romans 5:1)
- **You became a child of God** — "to all who received him, who believed in his name, he gave power to become children of God." (John 1:12)
- **You are no longer living in darkness** — "for once you were darkness, but now you are light in the Lord; walk as children of light" (Ephesians 5:8)

How to Talk About God

The Findables

The Spiritual Starter Kit helps them understand...

- their relationship with God is secure
- God's love is unconditional
- God will never leave them
- what to do when you sin?
- the importance of fellowship
- and more.

People really grow through it:

“I have found great comfort in the spiritual starter kit. Until you came along, I was going to do something that I would have regretted for the rest of my life. I want to thank you. Not only has it opened my eyes, but my heart as well. It is amazing the way I see things now, as oppose to the way I did a few weeks ago. If you knew me personally you would be amazed at the changes in me.” ~Jose

This comes in handy in everyday conversations that God brings your way.

True story -- While at a gate waiting for a flight, a woman began to talk to me. I mentioned the site. She immediately said,

“Wait!” She pulled out of her briefcase a huge Bible.

She said, “I’m a recovering alcoholic and a new Christian. I just bought this, but I have no idea what to do with it.”

I took her to StartingwithGod.com on my phone and she signed up for The Spiritual Starter Kit.

True story -- Another time, I led a friend to Christ in Starbucks, and she signed up for it. I lived thousands of miles away.

So I asked her, “Do you know someone that you think is a Christian?” She met with her friend the next day. Told her about asking Jesus into her life. She invited her friend to sign up for it, and they went through it together.

“I just really wanted to thank you for your website and emails. Your emails have really helped me begin a real relationship with God and I cannot tell you how grateful I am for that.” ~Jane

At the end of The Spiritual Starter Kit, the person is offered another series. It's on how to trust God, living under God's grace, being led by the Holy Spirit.

They would need to sign up for it. It's also free.

“I'm so grateful to find your website. I'm now understanding what it means to have a relationship with God. For the first time in my life I genuinely want to know more about God. No one is guilt tripping me to do so. I've never felt so at peace. Thank you.” ~Angelina

At the end of that, they are offered a series through the Gospel of John – so they can learn more about Jesus and learn how to notice what Scripture says.

*“I am new in Christ. Your teaching is just what I need .
You explain it in a way that makes sense to me.” ~Dale*

“I just want to thank you for all this wonderful
information I am a new beginner as of Sept last year. I
look forward to your emails!!” ~Linda

There is one more series...
How to Talk about God with others.

This came about because a new believer asked,
“How can I tell others about Jesus without
sounding like a psycho?”

“I am writing to sincerely thank you for how far you have brought me spiritually. You have taken me through many lessons aiming at strengthening my faith in Christ. I was unbeliever, but now I know I have Jesus in my life; he is my director in all ways.

I want to help others also.” ~Richard

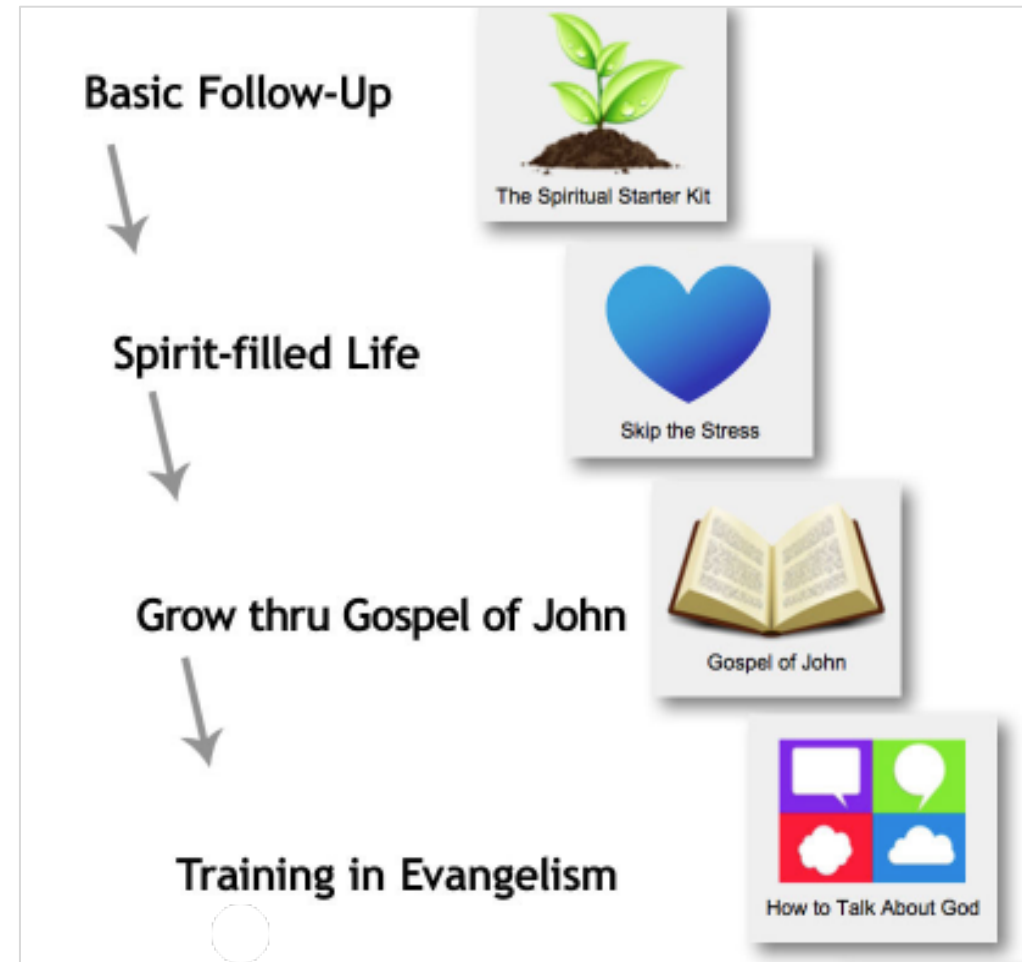

Your church can offer all of these series on your church's website.

You can also have the emails be sent from your own church's email address.
